

Uniform Care Information

Each uniform item should have a care label sewn into the garment.

DO NOT DRY CLEAN

The Dry Cleaners will fry the sequin and decorative trim on your uniforms. They will use pressers and steam rooms that instantly ruin the uniform. **DO NOT DRY CLEAN.**

FOR UNIFORMS WITH SEQUIN—

Spot clean areas in need. Hand wash only, if necessary. Use mild detergent, such as Cheer, Gain, Etc. (Do NOT use Woolite). Ivory soap is excellent for spot cleaning as well. Do NOT Soak. Hang to dry. Sequin is fragile- heat, agitation, and abrasion will ruin the sequin.

FOR UNIFORMS WITH FRINGE—

Spot clean areas in need. Hand wash only, if necessary. Use mild detergent, or ivory soap to clean. Do NOT soak. Hang to dry. Fringe will unravel with agitation.

FOR PLAIN ITEMS NO SEQUIN OR DECORATIVE TRIMS)—

Machine wash COLD with like colors. Use mild detergent only. Hang to dry. (You can treat these items similar to a swimsuit)

FOR LEATHER GOODS—

Wipe clean with a damp cloth, if necessary. Keep away from sunlight when possible. Overexposure to sun will weaken the leather and cause surface to yellow in appearance.

DISCLAIMER: These uniforms are custom-made, specialty garments, NOT ready-to-wear. Please keep this in mind when wearing and caring for these decorative garments. **DO NOT DRY CLEAN.**

Cheers, Etc., Inc. is not liable for damages occurring outside of our factory.
